*To study English – it's the beginning.  
 To know it – it's a half of cause.  
 To speak English – it's not the finish.  
 To love English – it's our real lot!*

- *So, Ira, why we must study English?*

- *The first-formers are ready to answer this question.*

- to read books in the original
- to communicate with other people
- to travel to different countries
- to use the Internet
- to send e-mails
- to make new friends

*We use English:*

- to to understand people from English-speaking countries
- to get new knowledge
- to translate books
- to make a good career
- to get education abroad
- to be clever

*We study English to sing songs. (Pupils are singing a song  
“The Hardkiss – Stones”)*

*I'm little yet, but I want to become a star.  
Now it's only my dream, but it will be the true in the future.  
I do all the best to go to the top of my tale.  
I know I will be the first because it's my fate.*

*- Yana Senchuk and Christina Kahnikevych from the sixth form are unique girls and they want to introduce themselves to you.*

*I am a Unique Person.*

*Hello, everyone! My name is Yana, I'm 11 and I am a pupil of the 6<sup>th</sup> form.  
In the world each person differs from other and everyone has his\her special,  
great talents given as God's gifts. Someone can dance or sing very well, others  
can do sport or have even extrasensory abilities.*

*I think that I'm one of them. I have got some talents, too and I'd like to say a  
few words about them to you.*

*I study very well at school. I love all lessons, but English – is number one for  
me. I think I can speak English almost fluently. I try my hands of writing poems  
and tails. It's amazing! I'd like to present your attention my poem “Ukraine”.*

*My Ukraine*

*I want to live in the world of peace,  
To see the lights at dawn and stars at night.  
I hate standing down on my knees,  
And when people die during the fight.*

*I'm happy to hear my mum's magic words,  
To see my father's dear tender smile.  
I wish all children of Ukraine could say:  
“We want to live, to love and not to die!”*

*Stop killing, you, cruel aggressor!  
We all demand “Hands out off Ukraine!”  
And be afraid of orphans, widows, curses  
And punishment of God for death and pain*

*Yana Senchuk*

*Besides English I like German and I can speak it well, too. I try to do literary translation from German. It's interesting but it's hard work. In general, I'm fond of foreign languages. I like Italian, French, Japanese.*

*My hobbies are different. I like doing sport. I ski a lot in winter. I do it almost every day. Skating and different tricks are lovely for me, too.*

*Besides it I dance greatly and I'm fond of playing the piano. I'm a good singer as I like singing very much, too. I often take part in different concerts and I am famous in my school. I attend school and church choir. I like reciting poems and taking part in shows. My family and my teachers praise me a lot.*

*You see, all people have gifts and talents but they must develop them with their efforts. And I do it every day.*

*And finally I'd like to sing a song "Show Me Your Love".*

- *Poetry helps to enrich the moral side of us, to see the beauty of the world around, to develop poetical sense and be unique in the soul.*

My mummy is the star  
She's here and so far.  
Her steps are everywhere  
On grass, on dew and there.*

*Her voice looks like a song  
Of birds who come back home.  
Her smiling is for me  
As playing water, as a bee.*

*Her soul is dancing well  
She's snowdrops, violet, bluebell.  
My mummy is own world  
She's perfect, unique as the world.*

*O.D. Volyniuk*

*Моя матуся  
Моя матуся – зіронька.  
І тут, і там так часто  
То у росі годиноньку,  
То між високим рястом.*

*Та голос в мамі солов'їний,  
І щастя лє із нього.  
І посмішка її єдина –  
Найкраща із усього.*

*Душа у матінки є вільна  
І пишна як квітки.  
Для неї час іде повільно,  
Щоб бути красивою завжди.*

*П. Волинюк*

*Sense of Life  
Borrow happiness forever  
Keep it always, every day.  
Do the best things ever, ever  
And all tears go away.*

*Pray the Lord all days and nights  
Taking from the life you want.  
Go to the highest top of flight.  
Improve, you are the best! Or not?*

*The Lord, believe, is your creator  
But you must do the best yourself.  
You are the only piece of nature?  
But keep your soul for Lord, for world!*

*O. D. Volyniuk*

*Сенс життя  
Візьми щастя на прокат,  
Бережи його, піклуйся.  
Будь щасливим, сльози – геть.  
Оком всесвіту милуйся.*

*Ти про Бога пам'ятай,  
В молитвах спіши до Нього.  
Шанс життя свого спіймай  
Й докажи – ти вартий того.*

*Бог, повір, є наш творець,  
Та ти твори себе самого.  
З частинок всесвіту сплети вінець,  
А душу свою присвяти для Бога.*

*П. Волинюк*

## *Ukraine*

*Ukraine... It is my Motherland.  
It is my town with fair sound  
It's golden field with wheat and plant,  
It's cloudless sky and stars around.*

*I like its forests, steppes and woods  
With rivers, streams and lakes.  
'Cause every thing has something good  
And beauty, richness we can take.*

*I like its hills, I like its sea  
With deepest deep and highest high.  
I like to watch, to look, to see  
And say to world: "It is all mine!"*

## Сценка

*Входять два хлопці, бачать двох дівчат.*

- *Іване, ти подивись лишень, які дівчата! Давай познайомимось.*
- *Привіт, дівчата. Ви такі гарні. Та й ми хлопці хоч куди. Побалакаємо, чи що?*

*Дівчата переглянулися між собою і стали розмовляти англійською мовою.*

- *Oh boys. Who are you? Where are you from? What do you want?*

*Хлопці:*

- *Василю, постривай, та що це таке? От халена. Та вони говорять не по нашому. Казала мені мама, вчи, Іване, англійську мову, Та і вчителька казала "Вчи!"*
- *А такі гарні дівчата. Так хочеться познайомитися.*
- *Давай будемо згадувати, чого нас навчали у школі.  
My name is... I'm from... I'm a pupil of the 8<sup>th</sup> form.*
- *Ні, ні, такі дівчата. З ними так не пройде. Тут треба придумати щось оригінальне. (Думають)*
- *О, давай так...( Хлопці співають)*

*You, дівчата, you so файні  
English is your mother tongue.  
Learning languages – is your hobby.  
You the best are! Клас! Виходить!*

*And we, хлопці, aren't good at  
Studying languages at school.  
But we promise, if you want it,  
Do the best! And we improve!*

*Our English, our German  
Will be perfect in some days.  
But we need you'll be the teachers  
Practice us in any ways.*

*(Співають дівчата)*

*Ой, ви хлопці, ви молодці  
You are primitive persons.  
You would like to study language  
Doing nothing as we know.*

*Your desire is a resting  
From your school activities.  
And you say you will be studying  
But you have enough facilities.*

*We are girls? And we have зонір  
We know everything we want.  
If you want to get acquaintance  
You must get the best results.*

*- So, if you want to be popular among girls, the most effective way to do it and become successful and famous is learning English because of its being “an international speaking bridge”. English helps us to achieve the most desirable goals in our lives.*

*- I can compare English with a beautiful queen, presenting us with a golden key from the door of excellent and magic world. That’s why we have to do all everything possible and impossible to solve its secrets.*

*Knowledge – is a power,  
It is the key for our better life.  
Knowledge – is everywhere.  
You can get it from different sides.  
You could be more intelligent  
With the help of talk.  
You could know a lot of interesting  
Debating about the importance of studying and work.*

*- Отже, дебати від 5(9) класу . “Why Knowledge is so Important for us”.*

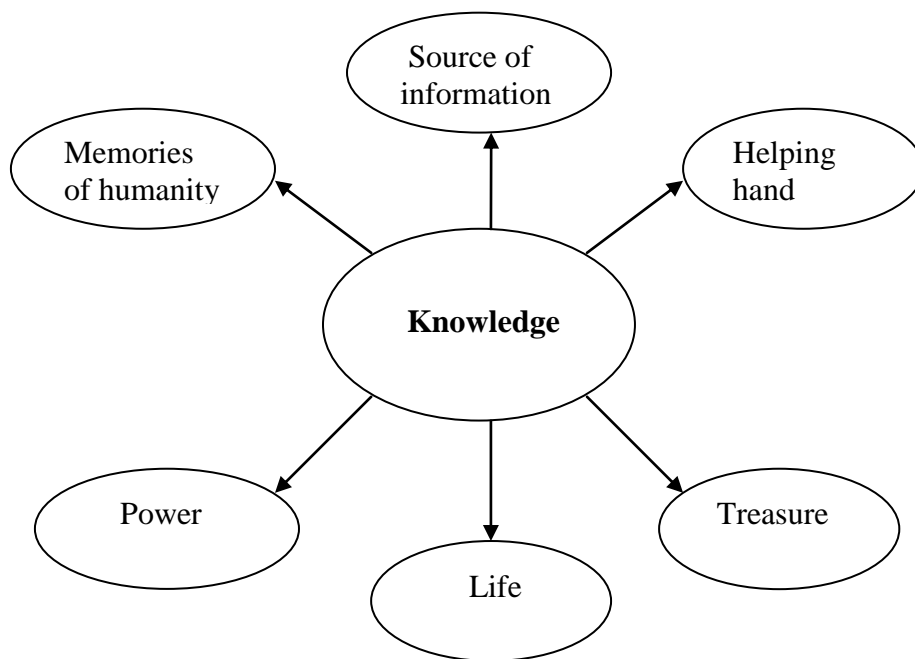

*Debate: knowledge is power, isn't it?*

*Judge: in today's world knowledge is one of the biggest and the most important problems that bother humanity every day. Most people say that it is necessary to*

*be an educated, intelligent person to develop themselves and get succeed nowadays. There are many ways to do it: the main one is using books, because they are the best and the most available source of knowledge, they keep the memories of our ancestors and give them to us. But now, when technology and science are on the highest pick of development, more and more people start using the Internet as the main source of information, and as the most comfortable way to solve their problems. The people don't want to develop themselves and they don't want to work hard anymore. This problem can lead the humanity to degradation. Today we are going to discuss the role of knowledge in today's world and in the lives of each of us.*

*First, let's remember what is knowledge?*

*For:*

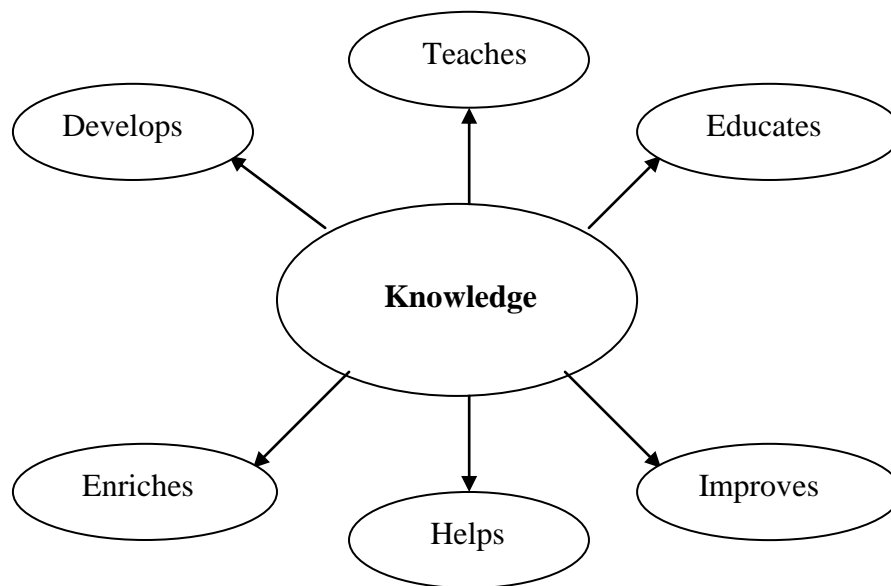

*Against:*

*It is cool, but we think that knowledge is not so popular now. Just look around, aren't you see that we live in the 21<sup>st</sup> century, there are so many things and gadgets that can solve our problems, so we don't have to spend much time on learning and thinking. For example, the computer can do almost everything in just a minute, it can find any information we need, so we don't have to make our brain work hard. Isn't it awesome?*

***What are the functions of knowledge?***

***For:***

- *develops our intellection;*
- *teaches us how to live and get succeed;*
- *educates us on many fields of science;*
- *improves our skills in different kinds of activities;*
- *helps us to solve our problems;*
- *enriches our inner world.*

***Against:***

***Well, you think that knowledge is perfect, but it's not. It takes so much time to learn something, you can spend your whole life learning, but at the end you'll realize that you've learned nothing. As a result, you've just wasted your life and the time that was given to you.***

***Judge: I think that we have to look closer on this problem. It's time to start our debate.***

**Proposer:** *I think that knowledge is one of the best gifts, which have been given to us by Lord, and it's such a great pleasure to feel that you're getting closer and closer to the God, am I right?*

**Opposer:** *Of course you are right, but it may turn into the great obsession that like an evil curse will slowly destroy the ones life.*

**Judge:** *So, we can say that knowledge is a blessing, but it can cause many problems to a person, who cannot control it, so be wise and careful. Тож ми можемо сказати, що знання є благословенням, але без нашого контролю воно може завдати нам шкоди, тож будьте поміркованими та обережними у своїх рішеннях.*

**Proposer:** *As the judge said, you have to be careful with knowledge, because it's a great power, that can lead you to success and it's the only way to reach to your aim and to do it you must learn more and more every day, because knowledge is what makes us a human and a personality. Do you agree with me?*

**Opposer:** *No, I don't. You truly believe that knowledge is the only way to happiness, but it's not. The main one is luck, no matter how wise you can be, if you're not lucky you won't reach to your aim. Just look around, there are many people who have graduated from the university, but don't work by specialty. I think that luck is the only thing that really matters.*

**Judge:** *If you want to get good results and be satisfied with your work, you should remember that knowledge is the key to success. Luck is just how much you believe in yourself, in your bright future. Якщо ви прагнете досягти хороших результатів та отримувати задоволення від своєї праці/ремесла, пам'ятайте, що саме знання є ключем до подальшого успіху. А везіння – це міра вашої віри в себе, у ваше світле майбутнє.*

**Proposer:** *In my opinion, knowledge is a magic flame that burns inside of us and helps us to deal with daily problems and sorrows, overcome any obstacles which will appear on our way. Don't you think so?*

**Opposer:** *I do, but also I think that you should use more modern sources of information and not spend all your free time learning, because this will bring only harm to you and your health.*

**Judge:** *the opponents have already expressed their thoughts and their points of view on this problem. We can make a conclusion: of course knowledge is important, necessary and it cannot be changed with something else. If you want to change this world, you must change yourself at first, because its destiny*

*depends only on you and your attitude to it. So remember, my friends: knowledge is a great power.*

- *Music, art, beauty... They are everywhere. It's the creations of human's hands. Real art appeals to the heart and mind of man, to his feelings and ideals and it proclaim life.*

*What is Art?*

*It's the beauty of colours,  
And magical musical sound.*

*It's the perfect flight  
And quite but dark night.*

*It's the playing of water  
And pretty young daughter.*

*It's the right speaking  
With light tone and feeling.*

*It's the way of life  
On the waves of love.  
It's our present, past and future  
With the best artist, with God-teacher.*

- *The life will be forever till the beauty is.*
- *The 11<sup>th</sup> formers would like to present you their project*

*“Beauty will save the world”.*

*Music*

*It's everything around me.  
It's the world of my mum.*

*It's the song of the birds.  
It's the sound of my heart.*

*It's the soul which can sing.  
It's the body which can dance.*

*It's emotions I can feel.  
It's the flight of myself.*

*Olga Voluniuk*

*(Пісня Beatles-Yesterday, супровід саксофона)*

*With love I live,  
With love I dream,  
With love I want,  
Without it don't.*

*With love I study,  
With love I talk,  
With love I'm happy,  
Without it not.*

*With love I listen,  
With love I understand,  
With love I wish you  
To be the best in the world  
And study English for yourself.*

*- Our party is over. Thank you for attention.*
